EXAMINER'S COMMENT AND STATEMENT OF REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12 January 2004 has been entered.

Allowable Subject Matter

2. Claims 1-10 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Upon further consideration and in view of applicant's response filed 12 January 2004, it is now considered that the prior art does not disclose or fairly suggest a steps of receiving infrared radiation that is simultaneously modulated with two discrete drive frequencies and evaluating the received radiation as a function of drive frequency. It is noted that while the prior art (Egee *et al.* – US 4,875,175) suggests an evaluating step wherein a parameter determined as a function of the ratio of amplitudes of two thermal signals (col. 2, lines 34-44), there is no suggestion of an evaluation as a function of drive frequencies.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
